

∞ I - Open letter to humanity ∞

It was some years ago, just after the revelation to which my guides had led me.

That day, I went in my room after having pondered over some passages from the book "Life and Words" about Master Philippe de Lyon compiled by Alfred Haehl. With force, my guides from Heaven had led me to that revelation, with force... they had not given in! Despite their insistence, I did not realize yet. And then, I made that spontaneous gesture and all of a sudden, I understood.

What an outburst of joy in my heart! What an admiration! Words cannot describe what I was experiencing. The unthinkable, the unimaginable, the inconceivable did really occur and a tiny few, too few, were aware of that!

As I came back to my living room; He was there in front of me! I could not see Him with my eyes of flesh but Christ was really there. So admiring was I that I told Him with force, "I shall cry out Your Name at the face of humanity".

That is why I am doing all this; to reveal to those that seek this truth I was allowed to pass on in a veiled way only.

In that truth is the most beautiful present I can offer to humanity.

This work has three parts. Parts should be read in order :

1. A small book titled : "The Gospels, Master Philippe de Lyon, a testimony" written in 2014.
2. An unexpected article on the Holy Shroud of Turin.
3. Twelve complements to bring some lines of thoughts. All complements except the numbers 2, 3, 6 and 10 are **strictly forbidden** to read unless you should have a keen desire to advance spiritually. Backtracking will not be possible...

May you make something of it and help me to convey this message with the utmost humility..

In Christ,
L.P.
